

Caregility Instructions

- On a chrome/chromium browser type Mobile.uheplatform.com
- You should see the following (similar to what you see on the mobile app)

- To get to the ED Telestroke Cart (the vast majority of the calls), click on “**Bedside**”
- For Princeton:

A screenshot of a web form titled 'Dial Patient'. It contains four dropdown menus: 'Customer' (selected: Medical Center Princeton), 'Location' (selected: MCP Main Building), 'Unit' (selected: ED), and 'Room' (selected: MCPED.CART01). Below these is a checkbox labeled 'Place Patient On Hold' which is unchecked. At the bottom is a blue button labeled 'Call'. The form is framed by a light gray border with small black corner brackets.

- For CCH:

Caregility Instructions

Dial Patient

Customer

Chester County Hospital

Location

CCH Main building

Unit

ED

Room

CCH.ED.CART01

☐ Place Patient On Hold

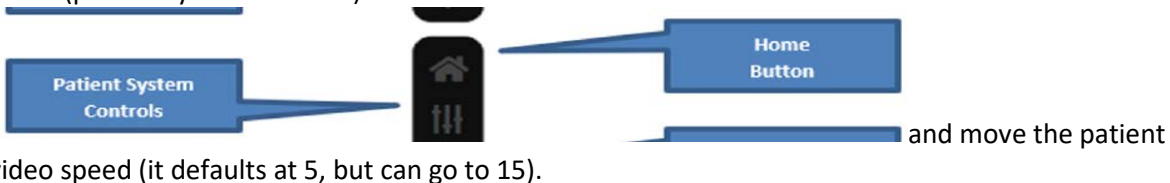

Call

- Hit CALL
- IF they are utilizing the i-Pad, Click on “Patient”
- In the search bar enter either:
 - **CCH ED I PAD**
 - **MCP ED I PAD01**

You will then be dialed in to the consult.

**** If you are joining the consult from a mobile device you must click the **RED** disconnect button to leave the call, THEN you can close the App****

Some other helpful hints: If you notice a lag in camera movement, you can click on the 3 bars under the home (patient system controls) :

Also as an FYI, if you have the Caregility platform open (but not in a call), you will not be able to use your camera for other teleconferences. You will need to close Caregility use the camera in other applications.

Documentation in PennChart is unchanged.
